School website: [www.intst.eu](http://www.intst.eu)

### Community

The International School of Toulouse (IST) opened in September 1999 as a response to the need of the local aircraft industry to facilitate the global mobility of its workforce. It is located in Colomiers, a town on the western edge of Toulouse.

There are 32 different nationalities represented in the student body which is 29% British, 27% Spanish, 14% French, 10% Asian, 5% German and 4% American.

### School

IST is a coeducational day school for students aged 3-18 years.

The current school role is 548.

IST is accredited by the Council of International Schools and the New England Association of Schools and Colleges.

## Curriculum

The Primary School caters for pupils in Kindergarten 0-3 and Grades 1-5 from a wide range of nationalities and offers a curriculum which facilitates mobility for families moving internationally. Some of our students will stay with us throughout their school career, others will join us for a short period and need a curriculum that facilitates their move to another school or country.

The school is authorised to offer the International Baccalaureate Primary Years Programme. The PYP is taught in all year groups from K0 to G5.

The Secondary curriculum is designed to provide students with an education that will prepare them to transition successfully to their next stage of education anywhere in the world.

Throughout the School a high priority is given to developing competence in French to promote both academic achievement and participation in the local community. Spanish and German both as mother tongue and foreign languages form part of the options in the Secondary School.

In the middle school, Grades 6-8, students study a wide range of subjects. All lessons are 1 hour in length and students follow a common programme with courses in English, Mathematics, Science, History, Geography, French, Music, Art, Design Technology, ICT, PE, Drama, PSHE and either Spanish or German.

Students in Grades 9-10 follow the International General Certificate of Secondary Education (IGCSE) programmes that prepare them for external examinations. All students follow 2-year long courses in English Language, Literature (English, Spanish or German), French, Mathematics and Science. In addition students elect to follow four options from the following choice of subjects: History, Geography, Business Studies, Art & Design, Design Technology, Triple Science, Drama, Computer Science, Music, Spanish, German.

Students in Grades 11-12 follow the two-year IB Diploma Programme as either full IB Diploma students or as IB Diploma Course students. IB Diploma students study six subjects at Higher Level or Standard Level). Students also follow a course in Theory of Knowledge, complete an Extended Essay and participate in Creativity, Action and Service. IB Diploma Course students build a suitable programme from the selection of IB Diploma courses offered; as a minimum requirement, however, they study at least 5 subjects at SL, follow the Theory of Knowledge course and complete CAS. They also have the option of completing the extended essay.

IST is a non-selective school. However, there is an entry policy for the IB Diploma Programmes. Students applying to study for the full IB Diploma should have at least five (I)GCSE passes at grade C or above and at least a B grade for any subjects they want to pursue at IB Higher Level. IB Course students wanting to study any subject at Higher Level must also secure at least a B grade at (I)GCSE.

In the Secondary School class sizes range from 1 to 24.

Currently, the average teacher-student ratio is 1:11.

## Grading and Ranking

### Grades 6-10

The following are the overall grade descriptors used at this level:

A*	Exceptionally strong knowledge and understanding
A	Very strong knowledge and understanding
B	Strong knowledge and understanding
C	Sound knowledge and understanding
D	Some knowledge and understanding
E	Basic knowledge and understanding
F	Rudimentary knowledge and understanding

### Grades 11-12

All assessments carried out at this level are in accordance with the IB guidelines for each curriculum area.

The following are the overall grade descriptors used at this level:

7	Excellent performance
6	Very good performance
5	Good performance
4	Satisfactory performance
3	Mediocre performance
2	Poor performance
1	Very poor performance

Theory of Knowledge (TOK) is assessed and reported on using an A-E scale, in accordance with IB guidelines:

A	Excellent performance
B	Good performance
C	Satisfactory performance
D	Mediocre performance
E	Elementary performance

### Rank

The International School of Toulouse does not rank students due to small class sizes.
